Uncover the veiled shadows  
Let it seep throughout embrace the state  
Light through darkness still shines through  
Purely easier to let complicate  
Revive a dormant spirit  
Spill over darkened shades  
Under quickness awakened  
This balance will never fade

#### CHORUS

Detach from crippling divisions  
Feel outside your skin  
Find empowerment and illumination  
Taken entirely from within  
(2x)

Amplified in crouching low light  
Experience grounds outside yourself  
Stand up embrace this night  
It still shelters assembled stars  
What comes from the source of light  
And all that is opposing  
Scratches in and breaks down  
The torn theme of self-loathing

#### CHORUS

How much deeper can this reach?  
Guess it all depends on the source of light

Revive awaken  
But we give in tonight
