(Keith Sewell)

Hand in hand woman and man  
We'll be together now and forever  
Side by side till the end of time  
Without any fuss just the two of us.

Just the two of us sharing our hearts  
Nothin' in this world gonna tear us apart  
Everyday falling deeper in love just the two of us  
Just the two of us.

--- Instrumental ---

Winds may blow hearts grow cold  
But we won't give up just the two of us  
Storms might come and try to make it rough  
But we won't budge just the two of us.

Just the two of us sharing our hearts  
Nothin' in this world gonna tear us apart  
Everyday falling deeper in love just the two of us  
Just the two of us.

Just the two of us sharing our hearts  
Nothin' in this world gonna tear us apart  
Everyday falling deeper in love just the two of us  
Just the two of us.

Just the two of us.  
Just the two of us...
