(Written by Mark Collie)

Let's put love back to work
To heal the pain and hurt
Let's build a fire inside
To keep our dreams alive.
Let's get back on the job and see
That life is all that it should be
Let's put love back to work
And make it work for you and me.
We might have to start all over
To ever make it right
We've come too far together
To quit without a fight.
We've both said things in anger
Painful unkind words
But we can save this union
If we put love back to work.
Let's put love back to work
To heal the pain and hurt
Let's build a fire inside
To keep our dreams alive.
Let's get back on the job and see
That life is all that it should be
Let's put love back to work
And make it work for you and me.
--- Instrumental ---
Let's don't put off untill tomorrow
Feeling's we could share today
Love left lyin idle
Will surely slip away.
Let's make a new commitment
To put each other first
Let's pull our hearts together
And put love back to work.
Let's put love back to work
To heal the pain and hurt
Let's build a fire inside
To keep our dreams alive.
Let's get back on the job and see
That life is all that it should be
Let's put love back to work
And make it work for you and me.

Let's get back on the job and see
That life is all that it should be
Let's put love back to work
And make it work for you and me...
