(Floyd Jenkins)

Low and lonely, sad and blue
Thinking only, of little you
Always trying, to keep from crying
I'm low and lonely over you.

Do you miss me, say you do
Tell me darling, please tell me true
Do you yearn dear, for my return dear
I'm low and lonely over you.

--- Instrumental ---

Low and lonely, weary too
You're the only, true love I knew
Don't be long dear, you know it's wrong dear
I'm low and lonely over you.

You're my darling, you're my dear
You can trust me, so never fear
How I miss you, I long to kiss you
I'm low and lonely over you...
