The name of the lord is music... to my ears

I'm gonna sing and shout it  
Gonna tell all about it  
Cannot live without it, in this veil of tears  
The name of the lord is music to my ears

The peace of the nations is music... to my ears

When Babel was divided  
Our tongues grew many sided  
Still all are united, song that's crystal clear  
The peace of the nations is music to my ear

Children laughing is music... to my ears

If we could ll be children  
A joyful noise make within  
Innocent once again, unfettered by the years  
Children laughing is music to my ears
