I've spent the past few months with your face
Tattooed to my brain
And I'm so sick of it
Wasted away too much of my time
Going out of my mind
Time to get over it

Cause I'm out having fun tonight
And you're nowhere in sight
So I think that I'll find someone new
Somebody who can do me right
Ya they got the music up
Got a cold drink in my cup
And the past is the last thing
That I'm thinkin 'bout tonight because

Cause right now
They're playin my song
The one that'll tell you that'll you
I'm gone
I'm throwing up my hands
Forgettin 'bout our plans
Ya I'm just gonna dance
Ya I'm just gonna dance

Right now ra ra ra right now
Right now ra ra ra right now
Right now ra ra ra right now
Right now ra ra ra right now

You're gonna spend the rest of your life
Just trying to find
Something like what you had
And when you wake up with nothing left
But all your regrets
You'll wish you had me back

But then it'll be too late
I'll be already one my way
To a life free of all of the shit
That you left behind when you walked away

Ya they got the music up
Got a cold drink in my cup
And the past is the last thing
That I'm thinkin 'bout tonight because

Cause right now
They're playin my song
The one that'll tell you that'll you
I'm gone
I'm throwing up my hands
Forgettin 'bout our plans
Ya I'm just gonna dance
Ya I'm just gonna dance

Right now ra ra ra right now
Right now ra ra ra right now
Right now ra ra ra right now
Right now ra ra ra right now

Under the lights I'll get over you tonight
You're gonna be just a memory memory
I see the future and it's lookin bright
You're gonna be just a memory memory
Of wasted time
Of wasted time

Under the lights I'll get over you tonight
You're gonna be just a memory memory
I see the future and it's lookin bright
You're gonna be just a memory memory

Cause right now
They're playin my song
The one that'll tell you that'll you
I'm gone
I'm throwing up my hands
Forgettin 'bout our plans
Ya I'm just gonna dance
Ya I'm just gonna dance

Cause right now
They're playin my song
The one that'll tell you that'll you
I'm gone
I'm throwing up my hands
Forgettin 'bout our plans
Ya I'm just gonna dance
Ya I'm just gonna dance
