"Thinking It Over"

Visit "[Thinking It Over](#)" on MotoLyrics.com

You want time
You want time to see who you are
And what you want from me
You want life
You want life to be a chorus
With nice little harmonies
You're thinking it over, thinking it over
You're thinking it over, thinking it over
Well it sure sounds like a good plan
Like a good plan should be
Remember when,
Remember when we went to see Dan
After the accident
For one day, for one day it seemed that we were
We were almost family love
You're just like me I do the same
I just think and think
I can relate to the feeling that you're going crazy
I'd even lie to ease your mind
Really whatever it takes
It's a circle that we can't escape
And you get so tired running in place
It sure sounds like a pretty good deal
It sure sounds like a good plan to meâ€¦Love.
