"Talk Quietly"

Visit "[Talk Quietly](#)" on MotoLyrics.com

talk to me with simple words, like we once used to be
when you used to write love letters
like when you used to hug me, stay and not run away
you used to come and give me a flower.
talk to me with simple words, like we once used to be
when you used to look at me
falling asleep next to you, like you used to worry
if I'll always be yours

we used to talk a little
we used to talk quietly, talk slowly
you used to look me in the eyes when I was talking to you

talk to me with simple words, like we once used to be
when you used to look at me
falling asleep next to you, like you used to worry
if I'll always be yours
we used to talk a little
hug me tight and don't let go
difficult days pass
I'm falling from the weight on my shoulders
I'm falling from the weight on my shoulders
we used to talk a little
