I heard him say I love you
I heard him say forever
and without you he'd rather be dead
I felt my hands shaking
I felt my heart breaking
cause I meant every word he said

I saw him whisper something
I saw you look so happy
its a look I will never forget
and the words he told you
meant I'd never hold you
but I meant every word he said

His heart stole those words from my head
but it's too late to tell you
what he already said

I heard him say I love you
I heard him say forever
and he said with this ring I thee wed
and when he said I do

(repeat last verse)
I choked back I do too
and I meant every word he said
