Oh I wish that you could see  
Just how smart now I've become  
Lookin' back at you and me  
When I was your only one

I guess you had to go away  
For me to know just what I had  
And now every night and day  
Girl I'm missin' you so bad

If your're ever in my arms again  
I'll hold you like a baby  
I'll treat you like a lady  
And I'll keep it up forever  
If your ever in my arms again  
Girl I'll live everyday  
Like you're gonna go away  
If you're ever in my arms again

I just woke up from a dream

I could see your eyes so clear  
They were filled with love for me  
Then I watched you disappear

Your voice echoes through my head  
The night wind whispers sad and low  
Memories dancin' 'round the bed  
Of the fool that let you go

If your're ever in my arms again  
I'll hold you like a baby  
I'll treat you like a lady  
And I'll keep it up forever  
If your ever in my arms again  
Girl I'll live everyday  
Like you're gonna go away  
If you're ever in my arms again
