I was lost and aimlessly searching
Lord knows I was one lonely man
Then you came along like that old gospel song
You took me just as I am.

Just as I was about to lose hope
Just as I come to the end of my rope
You turned me around with one touch of your hand
And your love saved me just as I am.

--- Instrumental ---

It's amazing you saw the light shining
Though the darkness that life had left me in
And I thank heaven above you took me just as I was
And you loved me just as I am.

Just as I was about to lose hope
Just as I come to the end of my rope
You turned me around with one touch of your hand
And your love saved me just as I am.

You turned me around with one touch of your hand
And your love saved me just as I am...
