Running down the road same old, same old
Oh, I know it so well I think I can drive and fly
I'm steady as a wall but underneath it all
I'm gonna blow the roof off one of these nights

I can't deny that somewhere inside there's a wild man
Mama always said, "Son, don't you let it get out of
hand"
If I go crazy now and then baby, you've got to
understand
Oh, I'm a wild man, yeah, that's what I am, I'm a wild
man

Coming through the door I know what it's all for
Why I'm walking the line as far as the line will go
Wound up so tight but I know tonight
I don't have to hold back when I'm holding you close

I can't deny that somewhere inside there's a wild man
Mama always said, "Son, don't you let it get out of
hand"
So if I go crazy now and then baby, you've got to
understand
Oh, I'm a wild man, yeah, that's what I am, I'm a wild
man

I can't deny that somewhere inside there's a wild man
Mama always said, "Son, don't you let it get out of
hand"
So if I go crazy now and then baby, you've got to
understand
Oh, I'm a wild man, yeah, that's what I am
Oh, I'm a wild man, I'm a wild man
