Don't you know I'd do anything for you?
I'd steal the stars out from the sky above you
I would tame a wild hurricane wind
If you take this heart of mine

Give me a signal, please give me a sign
Come on, baby, don't you waste no more precious time
In the midnight moonlight shinem don't hold back
tonight
Give me the green light

Don't make me wait one more day
Don't your forsake, this love so great
Don't you know I'd walk to Heaven's gate
Just to hear you say, I love you
Don't make me wait one more day

We've been friends and been so close together
But I need more to satisfy this hunger
I want your body, mind, spirit, and soul
Just let the feeling go

Oh, yeah, give me a signal, please give me a sign
Come on, baby, don't you waste no more precious time
In the midnight moonlight shine
Don't hold back tonight
Give me the green light

Don't make me wait one more day
Don't your forsake, this love so great
Don't you know I'd walk to Heaven's gate
Just to hear you say, I love you
Don't make me wait one more day

Don't you forsake this love so great
Don't you know I'd walk to heaven's gate
Just to hear you say I love you
Don't make me wait one more day

Baby, let's set the wheels in motion
You've got the cure to a heart that's broken
Come on, baby, let's seize the moment

Just say the words I long to hear spoken

Don't make me wait
Don't you forsake

Don't make me wait one more day
Don't your forsake, this love so great
Don't you know I'd walk to Heaven's gate
Just to hear you say, I love you
Don't make me wait one more day

Don't make me wait one more day
Don't your forsake, this love so great
Don't you know I'd walk to Heaven's gate
Just to hear you say, I love you
Don't make me wait one more day

Don't make me wait one more day
Don't your forsake, this love so great
Don't you know I'd walk to Heaven's gate
Just to hear you say, I love you
Don't make me wait one more day
