I sit and I watch the sun go down
Seems I've lost what I thought my heart had found
It took one crazy night to take the moon and turn out
it's light
Will it shine again? Well it just might

* If you'd only love me (You're all that I need)
If you, if you would only love me (You're all that I need)
If you'd forgive me now
With your love I'd get back the moon somehow
If you, if you would only love me

I dream, you're on the other riverside (The other
riverside)
You call you hold your arms out open wide (Open wide)
And I try to get to you, but the river is too wide
There's one way I could beat this raging tide

If you'd only love me (You're all that I need)
If you, if you would only love me (You're all that I need)
With the feeling inside, that our love could stand the
tide
If you, if you would only love me

Without you I'm just half a man
Alone and I'm lost
I took you for granted, now I understand
So here I am, counting the cost

If you'd only love me
If you, if you would only love me
The way I feel, I only feel with you only love me

Chorus :
(If you love me, if you would only love me, you're all
that I need)
If you, if you would only love me (If you love me, if
you'd only love me)
(You take the rain bring the sunshine again)
(Girl if you'd only love me, if you'd only love me)
If you, if you would only love me
(You'd be my world, I need no other girl)

[Chorus] till fade
