Don't go changing, rearranging  
Don't go changing, rearranging  
Hold on to a love sensation  
If you ever go away  
That would be my darkest day

We've been drawn together by love's chemistry  
I was born to be by your side sure as the river meets  
the sea  
We've only known each other for a little while, but  
you're my destiny

I would move all heaven and earth just to set you free  
In lover's liberty, inject the chemistry  
That's gonna move you, never gonna lose you

*[Chorus]*

Don't go changing, rearranging  
Hold on to a love sensation  
If you ever go away  
That would be my darkest day

Lately I've been seeing a little doubt in your eyes  
You used to call me everyday to say the things to keep  
me satisfied

I would move all heaven and earth just to set you free  
In lover's liberty, inject the chemistry

That's gonna move you, never gonna lose you

*[Chorus]*

Don't go changing, rearranging  
Hold on to a love sensation  
If you ever go away  
That would be my darkest day  
Don't go changing, rearranging  
Hold on to a love sensation  
That's a power energy that only flows from you to me

I would move all heaven and earth just to set you free  
In lover's liberty, inject the chemistry

That's gonna move you, never gonna lose you

*[Chorus]*

Don't go changing, rearranging

Hold on to a love sensation

If you ever go away

That would be my darkest day

Don't go changing, rearranging

Hold on to a love sensation

That's a power energy that only flows from you to me

Don't go changing, rearranging

Hold on to a love sensation

If you ever go away

That would be my darkest day
