I'm at the central station
Without a destination baby it's true, it's true.
A million miles from nowhere
Tryin to get to somewhere baby with you, with you.

Chorus:

Let's go outside stand by my side, say forever
You'll always be the one for me, say forever
I'm always there the one who cares, say forever
(Repeat chorus)

Doin' a hundred ninety
The autobahn she loves me more than you do. if you
do.
Big city life conundrum
Trying to keep myself from fallin for you, for you.

Chorus2x

I'm in my final verse and
The situations worse I dunno what to do, do you?
From Marrakesh to Hong Kong
The one thing I want from this world is you, it's true

Chorus2x

I'm always there the one who cares, say
forever(repeat)
