I know you been going through changes
It gets harder to make it everyday
But I know things will get better
If we start living life differently
Expectations for tomorrow
Are what we're living for today
It's a recipe for sorrow and I'll
Be the first one to say

Well I may not change the world
But I'm going to change my life
It's time for a revolution
And it's gonna start tonight
We can change the world
One day at a time
We can change the world
You and I.

You showed my life has its dangers
You showed me a world that is love
But I keep on searching for answers
Looking for signs up above
Life situations leave you wanting
Sometimes taking more than we can give

Sometimes it seems it's all or nothing
But I want to give
All I can to live

Well I may not change the world
But I'm going to change my life
It's time for a revolution
And it's gonna start tonight
We can change the world
One day at a time
We can change the world
You and I.
