"Deliverance"

Visit "[Deliverance](#)" on MotoLyrics.com

I came
Like a child to cleansing waters
There stood
And angel calling me
I felt sensations
Through my body
Not one
Word was spoken to me

Wholly
Together mind and spirit
Holy
Until it all was won
Thankful for the loving and the guidance
Look what
Look what it has brought

You filling me up with so much love
You filling me up with so much love
You filling me up with so much love
Deliverance

You filling me up with so much love
You filling me up with so much love
You filling me up with so much love
Deliverance

I was all alone
Looking for no one
When I ventured away
Inside from the sun
My heart was glad
The pain had past
Was free to explore the
World at last

A brand new life has come
Turning everything
Upside down
So much joy
Within my heart

Nothing can bring me down

You filling me up with so much love
You filling me up with so much love
You filling me up with so much love
Deliverance

You filling me up with so much love
You filling me up with so much love
You filling me up with so much love
Deliverance

Deliver me

You fill me up
With all your love
You fill me up
With so much hope
You fill me up thinking
There is deliverance
