They say you don't realize  
What you got til it's gone  
Did you ever really sacrifice  
And say they were right  
When they were wrong  
Did you ever really take a chance  
To find romance  
Do you even know the love you had is gone?

Would you ever find the love that's lost  
Could you ever find the love that's lost  
Will you ever find the love that's lost  
Could you ever find the love that's lost  
Would u ever  
Could you ever  
Will you ever find the love the love that's lost  
LOVE LOST

How can you ever heal  
A wounded heart that's been torn  
Would you close it up or wear it out  
On your sleeve

Battle won  
Did you ever really stop and smile  
And sit a little while  
Before the day was done  
Would you ever find the love that's lost  
Could you ever find the love that's lost  
Will you ever find the love that's lost  
Could you ever find the love that's lost  
Would u ever  
Could you ever  
Will you ever find the love the love that's lost  
Will you ever find the love that's lost  
Search deep inside your heart and know that what you  
got is gone  
Would you ever  
Could you ever  
Will you ever find the love that's lost  
Look a little harder and you will find it

Look a little deeper and you will find it  
Look a little harder  
Search a little deeper  
Look a little harder inside your heart  
Don't you know the love that's lost can be found  
Oh the love that you lost is inside your heart  
Search a little deeper  
Look a little harder  
When you close your eyes  
You can feel the love  
So cmon cmon  
Cmon cmon now  
Tell me that the love you lost can be found  
The love you lost can find  
Just close your eyes  
Look deep inside  
Recall the love the life the life  
What your looking for is not far  
Find that love that's lost  
Ooh cause I miss you so  
Find the love  
Find the love  
The love that's lost  
Can be found.
