Never turn the tide back baby  
Take it on the chin and let it go  
Turn away and never look back now  
Straight ahead?'s the way to go  
Never turn the tide back baby  
Gotta leave your frozen paradise  
Turn away and never look back now

Many nights you spend a lone  
Many rivers you have to cross  
No one can blame you when you want to stop  
Many memories made you proud  
Many moments you were the king  
But no one comes to you when you smile these days

Never turn the tide back baby  
Take it on the chin and let it go  
Turn away and never look back now  
Straight ahead?'s the way to go  
Never turn the tide back baby  
Gotta leave your frozen paradise  
Turn away and never look back now

There was no place you couldn't go  
Nothing that we couldn't do  
For a precious season she was always with you  
No words can get her back  
The magic is long gone  
So let it go there?'s no need to hold on

Never turn the tide back baby  
Take it on the chin and let it go  
Turn away and never look back now  
Straight ahead?'s the way to go  
Never turn the tide back baby  
Gotta leave your frozen paradise  
Turn away and never look back now
