You know I been places seen faces
Faced days all alone
Found some traces of happiness
Out on the road
But in my heart
There's always a touch of blue

There's something about knowing who loves you and
Where you belong
And in your mind it's the thing
That keeps you strong
And for one night it's
If all dreams come true

Now I could ask for fancy things
But there is more to life it seems
And in my arms is where
I dream to be

If I had one wish this Christmas
I'd ask to be home with you

Have to be home with
You know I belong with
Wanna come home yes I want to

If I had one wish this Christmas
I'd ask to be home with you

You know I've been thinking of friends
And the good times we share
And the smells, sights, and places
And things I care about
When I realize what's really true

Cause homes
Where the heart and the soul of
Who you are
Carry it with you all times
When your near or far
And it's the faith that helps to get you through

Now I could ask for fancy things
But there is more to life it seems
And in my arms is where
I dream to be

If I had one wish this Christmas
I'd ask to be home with you

Have to be home with
You know I belong with
Wanna come home yes I want to

If I had one wish this Christmas
I'd ask to be home with you

If only for one night
It would be allright
All I have is this time
To be with you baby

If wishes do come true
All I'd want is you
Cause you are my family
Can't you see baby

One wish this Christmas!
