"Wintertime"

Visit "[Wintertime](#)" on MotoLyrics.com

You only come and see me in the winter time
Snuggle up behind me to keep from the cold but once
the first light
Shows it's face I can't find you any place I 'm all alone
And when you are near you say you never want to leave
holding me
Close making me believe that maybe one day you wont
leave me
Alone, all alone

And if I cry don't look on by just be here for a while
And in my time I will shine and you will follow me

Dawn is nearly breaking and the warmth fills the room I
know as I lie
Here you'll be gone soon and as hard as I try you'll still
say goodbye
And I'll be alone all alone

And if I cry don't look on by just be here for a while
And in my time I will shine and you will follow me...
