she packed all her bags this morning  
caught the first flight to LA  
none of my words could keep her  
nothing could make her stay  
blew out all the candles  
theres no flame to light my darkest day  
i know i deserve this torture  
i know i deserve this pain  
(woahh)

i know im gunna lose you this time (woah)  
but i dont know how to get through this life  
without you with me  
goodbye would rather kill me (woah)  
i know im gunna lose you this time(woah)  
cuz i told you to many lies  
and no im guilty (im guilty)  
i lost your love  
now im losing my mind  
woah, woah, woah  
im gunna lose you this time

kiss on the face a simple goodbye  
was all she left me with  
didnt have the nerve to stop her  
after all the wrong i did  
theres no fairytale didnt think the story  
would end up like this  
i left the girl i love heart broken  
and its way to hard to fix  
(oh baby)

i know im gunna lose you this time (woah)  
but i dont know how to get through this life  
without you with me(ohh)  
goodbye would rather kill me (its gunna kill me baby)  
i know im gunna lose you this time(woah)  
cuz i told you to many lies  
and no im guilty (im guilty)  
i lost your love  
now im losing my mind

woah, woah, woah  
i know im gunna lose you this time

(turn the lights off)  
i know im gunna lose you this time  
thats why i aint putting up a fight  
cuz i know your right baby  
but baby i know ima lose my mind  
i never should of left your love behind  
(woah)

i know im gunna lose you this time (woah)  
but i dont know how to get through this life  
without you with me(ohh)  
goodbye would rather kill me  
i know im gunna lose you this time(woah)  
cuz i told you to many lies  
and now im guilty (im guilty)  
i lost your love  
now im losing my mind  
woah

i know im gunna lose you this time  
but i dont know how to get through this life  
without you with me  
goodbye would rather kill me  
i know im gunna lose you this time  
cuz i told you to many lies  
and no im guilty (im guilty)  
i lost your love  
now im losing my mind  
woah, woah, i know im gunna lose you this time
