Too fast slow down, baby you're moving too fast
Too fast slow down, baby you're moving too fast
Too fast slow down, baby you're moving too fast
Too fast slow down, baby you're moving too fast
Too fast slow down, baby you're moving too fast

You got a body from a magazine,
Unapproachable, no one knows she's only 17
Could you see her walk in those ...
I said baby you're way too young
For these older men, she said no I'll just happen fine
She thinks she knows what she wants, but I told her

You're moving too fast, baby you're moving too fast,
slow down
You're moving too fast, baby you're moving too fast,
slow down
Baby slow down, baby slow down, slow down, slow
down
Baby slow down, baby slow down, slow down, slow
down
You're moving too fast, baby you're moving too fast,
slow down
You're moving too fast, baby you're moving too fast,
slow down
Baby slow down, baby slow down, slow down, slow
down
Baby slow down, baby slow down, slow down, slow
down

All the celebrities know her name
She's international and she's flying high on cocaine
That's superman in her ...
Now she's drowning in all her drugs

Like a maybe she's only crying out for some love

Oh, throw that paper ...
And I told her

You're moving too fast, baby you're moving too fast,
slow down

You're moving too fast, baby you're moving too fast,
slow down
Baby slow down, baby slow down, slow down, slow
down
Baby slow down, baby slow down, slow down, slow
down
You're moving too fast, baby you're moving too fast,
slow down
You're moving too fast, baby you're moving too fast,
slow down
Baby slow down, baby slow down, slow down, slow
down
Baby slow down, baby slow down, slow down, slow
down

Hey pretty girl, it's a big whole open girl
But you ain't never seen it, you can be just what you
wanna be
Take it from me

You're moving too fast, baby you're moving too fast,
slow down
You're moving too fast, baby you're moving too fast,
slow down
Baby slow down, baby slow down, slow down, slow
down
Baby slow down, baby slow down, slow down, slow
down
You're moving too fast, baby you're moving too fast,
slow down
You're moving too fast, baby you're moving too fast,
slow down
Baby slow down, baby slow down, slow down, slow
down
Baby slow down, baby slow down, slow down, slow
down.
