We're all watching the game with your friends like  
every night  
I guess they were more fun than we are  
Isn't it kinda strange? that u always start a fight  
Maybe that's your excuse to leave 'cos  
Everything's changed, things are now clear  
Messing with my brain, u don't hug me  
You're to blame 'cos u don't love me finally I see that

You're so lame  
Can't believe that I ever fell in love with you (you're so  
lame)  
Damn I was so stupid  
You're so lame  
How would I let u play me like a fool?  
You're so..

You're so lame  
can't believe that I ever fell in love with you ( u so lame)  
damn I was so stupid  
you're so lame  
how would I let u play me like a fool (let you play me up  
like a fool)  
you're so..

You're so lame  
can't believe that I ever fell in love with you ( u so lame)  
damn I was so stupid  
you're so lame  
how would I let u play me like a fool (let you play me up  
like a fool)  
you're so..
