We want to sing it in original language but can only find the arabic script

Tufah the apple

She wants me to bring her some apples : where shall I get her any apples ?

If I were a farmer , I would have planted her a garden of fruits .

She wants me to bring her pomegranate : where from? It is still ripe up there on the trees

Is it mint that she wants ? But where from ?

I do promise her I shall work hard to cultivate all the lands by the riverside .

My soul is a candle illuminating the way Before her .

I love her as much as I love the two great rivers .

She looks like an April Moon wherever she passes by.
