I've been waiting round some time
Just to live a life that's mine
I've been walking round this town
When there's no one else around
You can hear it everywhere
This is our eternal prayer
Let it go,
Ride the wind
Let it go,
Ride the wind

You'll see me, I'll come and see you
Always finding something to do
Love is needing, I'm needing love
Got to know that there is enough
We've been working far too late
Carrying this heavy load
Let it go,
Ride the wind
Let it go,
Ride the wind
