### "The End Of Days"

Seeing a world cast in shadow  
Seeing it all waste away  
I am a flower fading  
The last and none, none to come

I will live through the cleansing  
I will bear witness to all  
I'm gonna pray for us  
For what's left behind  
For our broken hearts

[Chorus]  
The end of days is drawing near  
So the rain will fall like tears  
But the dusk of life will be the dawn  
And the circle will be drawn - again

Here is the wind, can you hear it?  
Singing the song of rebirth  
The song of you and me  
The song that marks the new beginning

[Chorus]  
The end of days is drawing near  
So the rain will fall like tears  
But the dusk of life will be the dawn  
And the circle will be drawn - again

Yeah, the end of days comes closer  
What's left behind for us?  
I want to know

[Chorus]  
The end of days is finally here  
And the rain will fall like tears  
So the dusk of life will be the dawn  
And the circle will be drawn - again
