Give me some kisses in the dark, in the dark, in the dark,
I wanna feel your breath in my back, in my back, in my back,
I wanna fix your broken smile, and I love, and I learn, I lie and I try
I even lie

Now I know that you may go
I don't want to face the change
Way up high over the rainbow
I don't see any lullabies

I wanna sing along the guitar, the guitar, the guitar
Playing music loud in the car, in the car, in the car
I wanna find the perfect rhymes
You love, you learn, you lie, you try
You even lie

Now I know that you may go
I don't wanna face the change
Way up high over the rainbow
I don't see any lullabies
[x2]

I wanna say
I wanna say
Pam-pam-pa-ra...

Now I know that you may go
I don't wanna face the change
Way up high over the rainbow
I don't see any lullabies
[x2]

Give me some kisses in the dark, in the dark, in the dark
