days in the future,
days in the pass, havent

cause i went across the ocean
just to here you speak,cause i
across these states just to here you
say,that were over now,that were no couple now,
this genertation makes me feel in patient,
that were no couple now,that were over now,
you said is your world now,you said your alone now,
{yeah,yeah love comes around,even though you
found,
the man in your life,even though he tells lies,
he be gettin girls on him like if he's the junk,
he thinks he's the babababaabbling,
he thinks he's the chachachachaching }
days in the future,days in the pass, havent you herd
