Will you light a lamp tonight
And stay by my side?
Will you find your way to me
And hold me while I cry?
I feel your majesty
Above me in the stars
But I feel so small
And far from where you are

[Chorus]
So be with me
And breathe in me
You are life
You are peace
So wrap your arms
Around this broken heart
Move in me
Lord I need
Your mercies

Will you fly to me tonight
And bring me your peace
And with your love, lift me up
With healing in your wings
I'm longing for your strength
And rest to my soul
Feeling you near
Offers me hope

[Chorus]
So be with me
And breathe in me
You are life
You are peace
So wrap your arms
Around this broken heart
Move in me
Lord I need
Your mercies
