I watch the stars  
Fill up the sky  
A billion lights that testify  
His hand is in all of creation

And there is no doubt  
That He has made me  
He's giving me life with  
Each breath I breathe  
And I feel a debt  
To never forget  
Him

[Chorus]  
I am His child  
Made with His love  
And it is enough to  
Bring me to my knees  
He's reaching down  
And I'm reaching up  
And somehow I feel  
The maker's touch

The sun and the moon  
Obeying his name  
Marking the path  
And lighting my way  
All of these things  
Given to me

So I will bow down  
With all of the earth  
And offer Him praise  
For my infinite worth  
For all of the light  
He's given to me  
'Cause

[Chorus x2]
