Too many people are
Just sliding by
Plugged into the world
But missing the meaning of life

But I was born to be
A warrior of light
With faith to move mountains
And the power of God
Filling my life

[Chorus]
I want to live my life with honor and faith
I want to return to His arms unashamed
It's not enough for me to live it half way
I'll follow Him fearlessly all of my days
I will live
With valiant faith

I've lived for ages
I prepared for this life
I won't be confused
And cross to the enemy's side

I am girded
With power and truth
I'm siding with God
He's pouring out blessings
In all that I do

[Chorus]

Valiantly, fearlessly
I am fighting for the mighty king
Valiantly, fearlessly
I am fighting for the mighty king

[Chorus]
