Honey can't you see  
What's it gonna be  
When I'll be your little lover

I can't really stop  
Cos' I'm feeling hot  
And I wanna take you high

You can run away  
Or you could stay  
But you can't refuse my love now

Listen to your heart  
Babe make me start  
Honey make me yours tonight

And if you could be right on my side  
You're my heaven comin' out of the blue  
We'll be flying together over the moon tonight  
And it'll be so true

Come on and be wuki wuki  
My wuki wuki  
Oh wuki wuki please!  
I wanna kiss wuki wuki  
The wuki wu  
Come on and be the wuki just for me

I know you're a brave  
But I love to rave  
And I like to hit it hard, oh

Babe make me rock  
Chase me like a fox  
Shakin' all my little heart
