Lay your head down on my shoulder
I wont let the night get colder
I'll protect you
I'll be keepin trouble far from where your sleepin
Until you wake in the mornin
Youve got the world to yourself.

Chorus
Dream on
Dream about the world were gonna live in one fine day.
Dream on
Spend the night in heaven, I'll be here to light your way.
Someday tomorrow will smile
But little girl in the meanwhile
Dream on

You're a princess. Chains around you
I'm a hero who just found you
Till a brand new day must wake you
Let imagination take you
Go where the music is playin
I'll be along in a while

Chorus

Baby, baby Dream on
Dream about the world were gonna live in one fine day
Dream on
Spend the night in heaven, I'll be here to light your way.
Dream on
