Everytime i catch your eye in the streetlight  
Late at night when i walk you home  
I hate to think that your not mine  
So then ill try to make you feel i dont want you  
I dont want to go down that road we always get in a big  
fight  
It happens all the time  
So i say that im just your friend and im willing to try  
But no i wont carry on pretening, its all a lie  
Coz i smile when your there but i cry when im all alone  
But its far to hard to say to you dont go  
Dont go.....  
Everytime i hear your voice on the phone line  
Late at night when your feeling low and your telling me  
to come over  
It happens all the time  
So when i say that im just your friend and im willing to  
try  
But no i wont carry on pretening, its all a lie  
Coz i smile when your there but i cry when im all alone  
But its far to hard to say to you dont go  
Coz i smile when your there but i cry when im all alone  
But its far to hard to say to you dont go  
Dont go.....  
Smile when your there but i cry when im all alone  
But its far to hard to say to you dont go  
Dont go...
