In this dark room we pass the hours  
Watching fear rise and shake up the ground  
In our mind dreams and hopr devours  
But our hearts are closed, they don't make a sound  
Oh we fight though that will break us  
For a light, angels and stars we pray  
And this wave high up will take us  
Opened eyes shouting we scream and say

Shine! And find out the answer  
Shine! It's die or dare  
Shine! And shatter this cancer  
Shine! The new world is there

Overdone memories we're washing  
Bleeding lips suddenly start to talk  
Frozen hands holding and touching  
It is not a dream, no, it is not a joke  
But they still don't really feel us  
After all eyes cannot see at all  
Take a breath, let stars us  
In our hands shining they start to fall

Shine! And find out the answer  
Shine! It's die or dare  
Shine! And shatter this cancer  
Shine! The new world is there

The new world is there  
A new world

Shine! And find out the answer  
Shine! It's die or dare  
Shine! And shatter this cancer  
Shine! The new world is there
