(Intro Possibly with piano that is noticeable throughout the whole song)

I've always thought of you as more than a friend,
I started to love you and it continues this day.
It was a friendship but I wanted more...
And for it to never end---

(If I heard one thing today,
I'd just love to hear you say,----
That you love me,
That you need me,
That you want me,
That you think about me,
Everyday-----)

Yeah I'd love to hear you say---
That you love me...
(Small piano breakdown)

I know that you need me,
I know that you'll always be true,
And you know that I need you too...
Because I'll always love you---
(SOLO)

I love you and you know it,
Well you say you want me to show it,
In every way, every day----

(If I heard one thing today,
I'd just love to hear you say,----
That you love me,
That you need me,
That you want me,
That you think about me,
Everyday-----)

I hope we never stray away,
I hope we never fall apart,
I hope you'll love me, everyday---

Because I don't wanna break another heart...

So I'd just love to hear you say...
'You love me too,
Oh I hope you do...

(If I heard one thing today,
I'd just love to hear you say,----
That you love me,
That you need me,
That you want me,
That you think about me,
Everyday-----)
