So you finally fessed up to her  
All the lies you said  
Now you kindly kiss up to her  
But the feeling's dead

Several days have passed now  
Darker than any damn cloud now  
Liquid sunshine falls down  
Harder than all the damn hounds

Chorus:  
Tried to give you summer, but I'm winter  
Wish I could make you spring, but I fall so hard

So you always did what you wanted  
We will be on our own  
I will soon let you go now  
Things will be all right

Several weeks have passed now  
Grayer than any gray cloud  
Several weeks have passed now  
And it's so hard

Chorus

And it's so hard to get out of bed  
She's impossible to get out of your head

Chorus?  
??
