Harborlight  
You're to me that special sign in life  
When I sail you got me back at night  
Harborlight  
Oh, harborlight

Harborlight  
You have shown me what's wrong and right  
I will never let you out of sight  
Harborlight  
Oh, harborlight

You reflected my way back home many times before  
You're the only one who knows what I am living for  
Help me through the night, shine on, don't let me down

Oh, harborlight  
I will come back  
Oh, harborlight  
I really come back  
Oh, harborlight  
Bring me back  
Harborlight  
Hold me tight!

Harborlight, I really miss you  
Harborlight, I can't resist you  
Harborlight, help me to get through the night

Harborlight, the nights are lonely  
You're my friend, my one and only  
Harborlight, help me to get through the night

Harborlight  
Take my hand and make my night look bright  
You have shown me the facts of life  
Harborlight  
Oh, harborlight

You reflected my way back home many times before  
You're the only one who knows what I am living for

Help me through the night, shine on, don't let me down

Oh, harborlight  
I will come back  
Oh, harborlight  
I really come back  
Oh, harborlight  
Bring me back  
Harborlight  
Hold me tight!

Harborlight, I really miss you  
Harborlight, I can't resist you  
Harborlight, help me to get through the night

Harborlight, the nights are lonely  
You're my friend, my one and only  
Harborlight, help me to get through the night

Harborlight, I really miss you  
Harborlight, I can't resist you  
Harborlight, help me to get through the night

Harborlight, the nights are lonely  
You're my friend, my one and only  
Harborlight, help me to get through the night

Harborlight, I really miss you  
Harborlight, I can't resist you  
Harborlight, help me to get through the night

Harborlight, the nights are lonely  
You're my friend, my one and only  
Harborlight, help me to get through the night
