Blood, blood - runs from putrid sores  
Screams, screams- worse than any war  
Toxic, toxic - Sick contamination  
Raping, raping - Through our planet's nations

[Chorus:]

Gruesome crimson bodies  
Suffer final anguish  
From waste or space  
From a pissed off god  
Where it comes from no one knows  
Contagious contamination  
Carnage, carnage - Fills the stinking streets  
Rotten, rotten - Swollen rancid meat  
Plague, plague - Everyone shall fall  
Death, death - And darkness rule all

[Chorus]
