"For My Land"

Visit "[For My Land](#)" on MotoLyrics.com

For my land, I will always have a thought
It will never leave my heart, my soul, please remember
us
For my land, I will always be in love
It will never leave my heart , my soul, please remember
us

I am gone far away, for too long from my mother land
and
I would love to be there with all my friends to chill
All around in the town, we wil dancing till the break of
dawn
We will keep memories, singing all along, it's so right
Singing all along, it's so right

For my land, I will always have a thought
It will never leave my heart, my soul, please remember
us
For my land, I will always be in love
It will never leave my heart, my soul, please remember
us

I have been in thousand places but I'd never could my
land and
I would dream to be there with all my Family
All along on the road, I will sing till I'm back to them
I will keep memories, sunrise in the sky is so right
Singing all along is so right.
