She came back and blew my mind away  
With her talk about the memories and childhood  
dreams and  
The games we used to play  
She walked through and she demanded my time  
But all I gave her was my advice and I told her twice  
Don't you dare leave my head on the line  
Don't take them away from me for my dreams they're  
all I  
Have  
How was I to see you'd be back to me thinking you  
could  
Take my hand

She came back and blew my mind away  
With her talk about the memories and the childhood  
dreams  
Yes those games we used to play  
She'd seen my face said it made her smile

But don't you come around here no more  
Knocking at my door cos' I ain't the man that you left  
Behind  
Don't take them away from me they're my dreams  
they're  
All I have  
How was I to see you'd be back to me thinking you  
could  
Take my hand  
Don't take them away from me they're my dreams  
they're  
All I have  
How was I to see you'd be back to me thinking you  
could  
Take my hand  
Don't take them away from me there my dreams there  
all I  
Have how could I conceal just how I feel from a lover or  
A one night stand
