(Johnny Paycheck)

It's a vicious circle he and I are loving in
He loves everyone around but me
Each time he leaves I say I'll never take him back again
He comes back just when I'm feelin' weak.

There goes my heart playing the part
Of the most foolish heart in this whole town
There goes my heart playing the part
Of the heart he knows that he can kick around.

--- Instrumental ---

I don't know what possesses me to think he'll change
I take him back and he proves me wrong every time
Yet I can't follow through with all the plans I made
For if I really lost him I'd lose my mind.

There goes my heart playing the part
Of the most foolish heart in this whole town
There goes my heart playing the part
Of the heart he knows that he can kick around...
