When I feel like,
Going crazy,
I stick my head,
In a pillow,
Then when,
My friends ask me,
Are you ok?
I tell them to shut up,
Then I realize,
When I said that,
That only disturbed teenagers,
Say that stuff,
And I got to knowing,
That I'm not all grown up

All grownin up (all grownin up) these days,
And the years go by,
By like that

One time,
I saw this guy,
He came up to me,
And said what up?
I got to realize,
That he's a frosh,
And plus not my type

All grownin up (all grownin up) these days,
And the years go by,
By like that

When I talk to Jesus Christ,
I feel,
Like my worries are blown away,
But this guy,
That is my crush,
One day after school,
I asked him if he wait,
I know he likes my music,
And he respects me for who I am,
Kind of like,

I'm not the person,
Who would say stuff like damn

All grownin up (all grownin up) these days,
And the years go by,
By like that

Sports are my life,
So is music,
But of course,
School comes first,
I was thinking,
Maybe one day,
This "Off Limits" band,
Will become the top charts

All grownin' up (all grownin' up) these days,
And the years go by,
Oh, by like that
