Held up a strong grudge, yeah on love,
'Cause I couldn't handle it
From other relationships.
You kicked around, I said "Oh, no"
Baby, you proved me wrong
'Cause I know it's wanted in.
Everybody was falling in love,
I was fading away!
You popped down everyone
And left me nothing to say.

Oh, get me now falling in love
And never be far unleft to say...
But I like it, I like it, I like it, I like it
Yes, I like it, I like it
Oh, get me now falling in love
And never be far unleft to say...
But I like it, I like it, I like it, I like it
Say I like it
I like it, I like it, I like it.

Take a deep breath, shouldn't let go
Every memory (every memory)
I had in the past before.
Man, it ain't your fault that I'm so cold,
Won't take it out on you
'Cause that's not what good girls do.
Everybody was falling in love,
I was fading away!
You popped down everyone
And left me nothing to say.

Oh, get me now falling in love
And never be far unleft to say...
But I like it, I like it, I like it, I like it
Yes, I like it, I like it
Oh, get me now falling in love
And never be far unleft to say...
But I like it, I like it, I like it, I like it
Say I like it
I like it, I like it, I like it.

Oh oh, I'm falling for you boy,
But I like it,
Oh, oh, you got me falling for you boy,
But I like it, I like it.
Get me now falling in love
And never be far unleft to say...
But I like it,
Get me now falling in love
But I like it.

Oh, get me now falling in love
And never be far unleft to say...
But I like it, I like it, I like it, I like it
Yes, I like it, I like it
Oh, get me now falling in love
And never be far unleft to say...
But I like it, I like it, I like it, I like it
Say I like it
I like it, I like it, I like it.

Oh oh, I'm falling for you boy,
But I like it,
Oh, oh, you got me falling for you boy,
But I like it, I like it.
Get me now falling in love
And never be far unleft to say...
But I like it,
Get me now falling in love
But I like it, I like it, I like it.
