Never Neverland, oh
Oh, Never Neverland
Yeah!

Tell me have you ever wished
That broken hearts could be whole again
Is there such a place where rain never falls
And everything wrong turns right
Tell me have you seen that world
Where nobody cries cause there's never lies
Where everybody finds that innocence
Once again, where love don't die
No, no

I'll follow the stars in your eyes
I'm hoping they will guide me
I'll give you my hand and we'll fly
Please fly

Can you take me to the place I dream about
Where I don't have to be afraid cause you're around
Yeah with every single kiss my heart believes
It feels like time stands still when you're with me
Never Neverland
Oh, Never Neverland

You're the one I wanna trust
Cause it feels so right just the two of us
This paradise found in every embrace
I'll never have to face alone
So tell me what you're waiting for
Cause there's something right here that we can't
ignore
And I never ever wanna find my way back
To anything bad I've known

Let's follow the star to the right
I know that it will guide us
I'll give you my hand and we'll fly
Please fly

Can you take me to the place I dream about
Where I don't have to be afraid cause you're around
Yeah with every single kiss my heart believes
It feels like time stands still when you're with me
Never Neverland
Oh, Never Neverland
Never Neverland
Oh, Never Neverland

Can you take me, oh yeah
I wanna see those skies yeah
Show me that secret place that you hide away
Wanna know, wanna go there

Can you take me, oh yeah
I wanna see those skies yeah
Show me that secret place that you hide away
Wanna know, wanna know

Can you take me to the place I dream about
Where I don't have to be afraid cause you're around
Yeah with every single kiss my heart believes
It feels like time stands still when you're with me
Never Neverland
Oh, Never Neverland
Never Neverland
Oh, Never Neverland
Never Neverland
(Take me back)

Can you take me, oh yeah
I wanna see those skies yeah
Oh, Never Neverland
Wanna know, wanna go there

Can you take me, oh yeah
I wanna see those skies, yeah
Show me that secret place that you hide away
Wanna know, wanna know
Never Neverland
