"No More Goodbye"

Visit "[No More Goodbye](#)" on [MotoLyrics.com](#)

Inside the sound of fascination
feel the air with heat
to intimate and simplify the beat

I catch the groove four on the floor
defence me from the time
to realize now that I'm movin' on

No more goodbye no goodbye no goodbye....
No more goodbye and you know why
I lost control, you touched my soul

No more goodbye, no more goodbye bye, bye, bye,
bye
if you wonder why - bye, bye, bye, bye
no more goodbye bye, bye, bye, bye
fade away and fly - no more goodbye

Imagine highlights of a tune
and swim in music rain
turn up your inner senses to the max
groove on and feel it deep inside
bring melody in sane
to realize now that I'm movin' on

No more goodbye...
