Try to get out of time
Let me go with the free soil
Every step you take is unthinkable
I try to do it again, we
The college kids just say
Hey, do better, so do it now
Let me see, let me tell you

It all ends here
Ohh something new is coming
But is not the same,
Ohh you know that I will continue here
Don't drop what's mine
Protect myself, my arms look
I can cover it all full of dirt
(Ohh) Maybe you can do well, but not when...
It all ends here

Gritenlo,!, because only you know the truth
This is a little secret I'm keeping
Tiralo! when it is assumed that you'll say my name
And I'll be back just to take care of the back
I don't wanna to say but you are my hero in my
nightmares
But if you not know that you can be in reality
Open your big eyes, sees what's going on around me

It all ends here
Ohh something new is coming
But is not the same,
Ohh you know that I will continue here
Don't drop what's mine
Protect myself, my arms look
I can cover it all full of dirt
(Ohh) Maybe you can do well, but not when...
It all ends here

I must admit
You're good, you could change
But don't wanna,
So you can not say my name (and my name is!)

Intet I could be like you (just so I was just like you)
Could it be the second indicator to change
The world is in any of our masters, you will do well if

It all ends here
Ohh something new is coming
But is not the same,
Ohh you know that I will continue here
Don't drop what's mine
Protect myself, my arms look
I can cover it all full of dirt
(Ohh) Maybe you can do well, but not when...
It all ends here
