When I wake up, I will wake up
I've been sleeping far too long
I will raise up, to clean my days up
Oh, baby good luck in coming home
Final hours, captivating,
Reaching for low light to come
So revealing for my heart beating,
There's just so much more to see

See the flashing lights, gleaming shine so bright,
Honey, honey, honey, honey, honey
See the flashing lights, gleaming shine so bright,
Honey, honey...

When I wake up, I will wake up
I've been sleeping far too long
I will raise up, to clean my days up
Oh, baby good luck in coming home

See the flashing lights, gleaming shine so bright,
Honey, honey, honey, honey, honey
See the flashing lights, gleaming shine so bright,
Honey, honey...

I'll do miss a game, oh, can't be my own way
I'll live day by day, please starting on my way

See the flashing lights, gleaming shine so bright,
Honey, honey

When I wake up, I will wake up
I've been sleeping far too long
I will raise up, to clean my days up
Oh, baby good luck in coming home
